

Guardianship/Conservatorship 85-PR-19-1081

I demand a new lawyer who will not sabotage my case, will communicate with me, and I demand an examiner of my choosing after consulting with the new attorney. Under no circumstances do I wish Dr. Dennis who is not qualified and is hostile towards me to evaluate me. I demand a jury trial under the US Constitution because my EVERY right is at stake. Further I would like my right to present evidence and witnesses on my behalf. I have had zero contact with my court appointed public defender in the last year despite numerous attempts on my behalf and one half assed attempt by him days before the last hearing where he did not respond after being called back within the hour of calling me. He refuses to communicate via email which is preferred. I also demand an in-person hearing with every witness to be present physically and a continuance until I have had time to confer with a real attorney.

Sincerely,
David A. Russell.
