What is the Ward's current diagnosis?

Delusional Disorder

What is the proposed plan of care for the Ward?

Individual and Group Therapy, medications.

What is the proposed medical treatment and habilitation for the Ward?

If Ms. Dzulba is not amenable to Psychotherapy, Medications will be prescribed.

What is the probable duration of the Ward's admission subsequent to the initial 30 day admission?

Approximately at least One year

Please state fully the factual basis for the need for continued admission of the Ward.

Ms. Dzuiba was admitted to SLPRC as a transfer from Metropolitan Psychiatric Center, where she was hospitalized for over 18 months following being found Incompetent to Stand Trial and subsequently Permanently Incompetent. She had a Jury Trial to determine whether she needed a Guardian to address her medical

and placement needs and was found partially incompetent and a guardian was appointed. However, she is appealing this decision by the jury and her charges are still unresolved. Ms. Dzuiba has been resistant to any form of treatment offered and remains delusional. Thus she is in need of continued stay on the ward at SLPRC.
